Fish 'N' Chips

Fish 'N' Chips is a chip-throwing game, playable on a table, combining dexterity and tactics. In turn, each team throws chips of different values to score majorities on the different elements of the playmat.

The playmat represents the beach, separated into three different zones. Three targets are placed on it representing the preys that birds covet! Each team has 12 chips of value 1 to 3, the birds of your gang! In turn, each team throws a chip of their choice, aiming at a target, an area of the beach or the opposing chips! Once all chips have been thrown, the sum of the values on each element is calculated, with a point awarded to the team with the highest total. The first team to win two rounds wins the game!
